Creating Logogevity™ with our
Embellishment Experts

Another Way to Reward

If you want to opt for a different product or want to add something special to commemorate exceptional achievements, consider spicing up your logo. Incorporating luminescent decoration techniques is a great way to shine a light on your star employees. Ranging from metallic thread to sequin embroidery, we've got an abundance of options to add something special to these employee rewards.

Our most popular decoration technique can be taken to the next level by incorporating a little shine. Swap out standard threads for metallic thread to elevate your logo and make the wearer feel like a million bucks. If you want a more

subtle accent, consider mixing thread types for a multidimensional look.

Metallic Thread Embroidery

LEARN MORE

A fun way to revamp any logo, this technique involves sewing individual sequin discs to a garment or cap with embroidery thread. Not only does this technique add sparkle, but also texture, giving the embellishment a 3D effect. When using sequins, only one color can be used. However, a combination of thread and sequin embroidery can be used if multiple colors are needed.

Sequin Embroidery

Die-Mold Transfer

If you have a larger order and want to take your logo to the next level, consider opting for a die-mold transfer. With this method, we can produce highly detailed logos with texture and dimension. The result gives your logo an enhanced appearance that is sure to catch the eye.

LEARN MORE

A great option for use on fleece and sweaters, laser applique creates a clean-cut look. When selecting the type of applique, opt for twill and utilize colors such as Vegas Gold or Silver Sparkle for a luminous look. These appliques can also be layered to make text pop more on a garment.

Laser Applique

Screen Printing

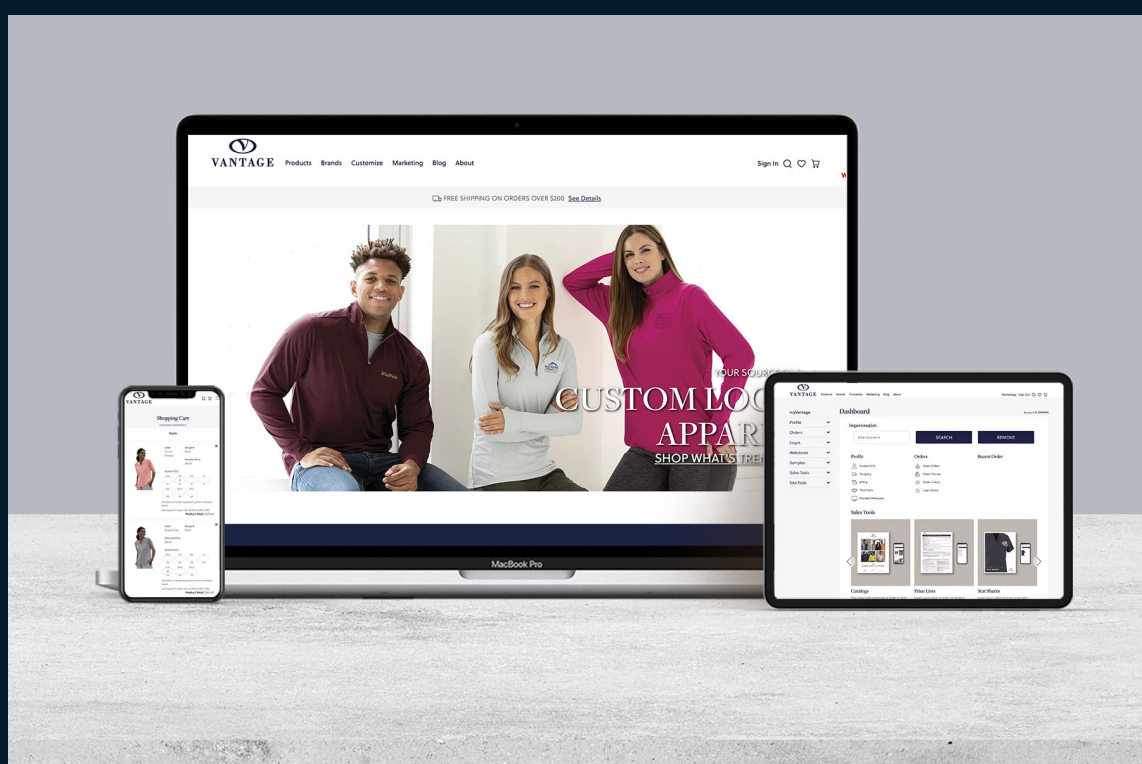

An affordable option to create an incredible look, screen-printing is great for high-volume orders.

To elevate any screen-printed garment, simply opt for our metallic ink to create a subtle sheen.
